Returned to applicant for correction.....

Corrected application filed.....

Map filed..... MAY 15 1984

The applicant..... F.I.L.L., Inc.

P.O. Box 12232....., of Reno.....
Street and No. or P.O. Box No. City or Town

Nevada..... 89510....., hereby make S application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Nevada, September 13, 1967

1. The source of the proposed appropriation is..... Underground.....
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is..... 0.0027 CFS (7 Apartment Units)..... second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for..... Quasi-Municipal (Apartments).....
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under "No. 12. Remarks")..... Supplemental to existing spring under Claim 732-Truckee River Decree

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point..... within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 12,
Describe as being within a 40-acre subdivision of public
T. 18N., R.19E., MDB&M or at a point from which the South $\frac{1}{4}$ corner of said
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
Section 12 bears S 13⁰05'W 3055.0 Feet.

6. Place of use..... Portions of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 12, T.18N., R.19E.
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about..... January 1..... and end about..... December 31....., of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)..... Drilled well, pump, motor and connection to
State manner in which water is to be diverted, i.e. diversion structure, ditches and
existing supply line from spring.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works..... \$10,000

10. Estimated time required to construct works 1 year
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use 2 years.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This application is made supplemental to an existing spring right under Claim No. 732-Truckee River Decree, to serve seven (7) Apartment Units.

Well will be used as emergency backup when spring or pipelines are clogged, under repair or frozen. The recent development of parcels adjacent to the spring has caused more frequent interruption of water supply.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is issued as an emergency back-up to the existing surface water right under Claim No. 732 of the Truckee River Decree to be used only when the spring is not capable of providing sufficient water for the existing seven apartment units or during (CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0027 cubic feet per second, but not to exceed 0.639 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before February 19, 1986

Proof of completion of work shall be filed before March 19, 1986

Application of water to beneficial use shall be made on or before February 19, 1990

Proof of the application of water to beneficial use shall be filed on or before March 19, 1990

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed MAY 19 1986 IN TESTIMONY WHEREOF, I PETER G. MORROS

Proof of beneficial use filed 8-30-90 State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 19TH day of FEBRUARY
